End-User License Agreement (EULA) for the use of

EARTh - Environmental Applications Reference Thesaurus

This Agreement is made by and between the **National Research Council, Institute of Atmospheric Pollution, Environmental Knowledge Organisation Laboratory** (hereinafter referred to as "**CNR-IIA-EKOLab**") and the final users (hereinafter referred to as LICENSEE).

WHEREAS, the CNR-IIA-EKOLab research activity has the purpose to develop and maintain in the context of the **T**hesaurus-based **R**eference **E**nvironmental **K**nowledge **S**ystem (**T-REKS**) the **E**nvironmental **A**pplications **R**eference **Th**esaurus (**EARTh**) to facilitate the indexing, retrieval, harmonising and integration of human- and machine-readable environmental information from disparate sources, across the cultural and linguistic barriers;

WHEREAS, the CNR-IIA-EKOLab's research activity has produced printed, online and machine-readable environmental knowledge terminology products and programs that are useful in a variety of applications;

WHEREAS, the LICENSEE is willing to use these products at its sole risk and at no expense to CNR-IIA-EKOLab;

WHEREAS, the LICENSEE is willing to provide to CNR-IIA-EKOLab, any useful information which will result in immediate improvements in environmental information transfer to segments of the community, and that is consistent with CNR-IIA-EKOLab's institutional functions;

WHEREAS, the LICENSEE understands that **T-REKS** and **EARTh** have been compiled by the CNR-IIA-EKOLab at substantial cost, and that ownership of such copyrighted materials, shall during the term of this License and thereafter always remain with the CNR-IIA-EKOLab, notwithstanding LICENSEE's right to use of these materials.

NOW THEREFORE, it is mutually agreed as follows:

1. The CNR-IIA-EKOLab hereby grants a non-exclusive, non-transferable, and revocable right to LICENSEE to use the available version of **EARTh** and incorporate it in any computer applications or systems designed to improve access to environmental information of any type, subject to the restrictions in other provisions of this Agreement. The list of licensees authorized to use **EARTh** is public information and will be published on the CNR-IIA-EKOLab web site http://ekolab.iia.cnr.it.
2. No charges, usage fees or royalties will be paid to CNR.
3. LICENSEE is prohibited from distributing **EARTh** or subsets of it in any form, except as an integral part of computer applications developed by LICENSEE for a purpose other than redistribution of data contained in **EARTh**.
4. LICENSEE agrees to inform CNR-IIA-EKOLab prior to distributing any application(s) in which it is using **EARTh** is being used and is encouraged to inform CNR-IIA-EKOLAB about any difficulties encountered in using **EARTh**, about changes or enhancements to **EARTh** that would make it more useful to LICENSEE and its user groups.
5. Within 30 days of the end of any calendar year in which LICENSEE makes use of **EARTh**, LICENSEE is encouraged to provide CNR-IIA-EKOLab with a brief report on the usefulness of this product.
6. CNR-IIA-EKOLab represents that the data provided under this Agreement were formatted with a reasonable standard of care, but makes no warranties expressed or implied, including no warranty of merchantability or fitness for particular purpose, regarding the accuracy or completeness of the data or that the machine-readable copy is error free. Therefore, LICENSEE agrees to hold CNR-IIA-EKOLab and any organizations contributing data to **EARTh** free from any liability resulting from errors in data or on the machine-readable copy. CNR-IIA-EKOLab disclaims any liability for any consequences due to use, misuse, or interpretation of information contained in **EARTh**.

7. CNR-IIA-EKOLab represents that its ability to continue to include additional terminology within **EARTh** is dependent on its research activities and on ongoing contractual relations or agreements with third parties. Therefore, LICENSEE agrees to hold CNR-IIA-EKOLab free from any liability resulting from the change and/or removal of any terms from future editions of **EARTh**.
8. CNR-IIA-EKOLab reserves the right to change the type and format of its machine-readable data and agrees to inform LICENSEE of any changes to the format of **EARTh** data, EXCEPT the addition of entirely new data elements to **EARTh**.
9. This License Agreement will continue to be effective also in case of institutional reorganisation implying a change of name or status of both institutions. The two institutions agree to inform each other of any institutional change.
10. The presence in **EARTh** of terminology produced by organizations other than CNR-IIA-EKOLab does not imply any endorsement of **EARTh** by these organizations.
11. LICENSEE shall acknowledge CNR-IIA-EKOLab as its source of **EARTh** data, citing the year/version of **EARTh**, in a suitable and customary manner but may not in any way indicate or imply that CNR-IIA-EKOLab has endorsed LICENSEE or its products.
12. **EARTh** is provided in English and Italian. CNR-IIA-EKOLab disclaims any liability for any consequences due to incorrect translations.
13. LICENSEE shall ensure that anyone who has authorized access to data from **EARTh** under this Agreement complies with its provisions.
14. LICENSEE and/or its end users shall be solely responsible for compliance with any copyright or other restrictions on material in **EARTh**; CNR-IIA-EKOLab assumes no responsibility or liability associated with the LICENSEE's (or any of the LICENSEE's users) use and/or reproduction of copyrighted material. Anyone contemplating reproduction of all or any portion of any of **EARTh** should be authorised in written form.
15. This Agreement shall be effective until terminated by one of the parties upon 30 days written notice to the other party. LICENSEE's failure to abide by the terms of the Agreement shall be grounds for its termination.
16. In the event that any provision of this Agreement is determined to violate any law or is unenforceable, the remainder of the Agreement shall remain in full force and effect.
